

Monitoring and Accountability Reporting Department  
DAC General Meeting  
February 16, 2011

Public Objection

**(090) Fletcher Elementary - Objection to the SARC Waiver:**

I object because we are constantly getting things for SSC work that or other various things, last minute things, where we're just a stamp and a seal on something that you submit without actually giving us time to make input in these types of things and I'm tired of just rubberstamping things.

**Page:** So you're saying this is after the fact that the Board notified us.

**Fletcher Elementary response to Page:** It is after the fact! The Choice applications were due yesterday and there wasn't any information and they are asking for this after the February 1<sup>st</sup> deadline, and so I object to the (inaudible) department procedure.

**(102) Johnson Elementary - Objection to the SARC Waiver:**

I object to the waiver as well. I think to use the School Accountability Report Card has very critical information. The district is aware of this information. Parents need to have it in order to decide what they are going to do with their children, especially since we are a district in Program Improvement. We need to be able to analyze each school. I guess in addition to my objection, I have a question, and that is.

**(109) Johnson Question:** We've always had the School Accountability Report Card, when did it become that we needed to have a waiver to extend the time? You know the district in the past has always been able to provide, it has not provided. The district had never ever whole completed all their School Accountability Report Cards.

**Page:** We are more complicated than that.

**Johnson Response:** They have not!

**Johnson Question:** Do we know the reason or the rationale is for them not to be able to produce them when at one time they could?

**District Response:** Ron Rode, Executive Director, Office of Accountability explained the legislative deadline.
