Click on column header link to view notes.

"N/A" means a number is not applicable or not available due to missing data.

" * " means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted. Similar schools ranks are not calculated for small schools.

"A" means the school scored at or above the statewide performance target of 800 in 2010.

"B" means this is either an LEA or an Alternative Schools Accountability Model (ASAM) school. Schools with an approved ASAM application do not receive statewide or similar schools rankings. Growth, target, and rank information are not applicable to LEAs.

"C" means this is a special education school. Statewide and similar schools ranks and API growth targets are not applicable to special education schools.

"I" means the school has some invalid data, and the California Department of Education cannot calculate a valid similar schools rank for this school.

Missing schools - some schools in the LEA may not appear on this list because APIs were not generated for them. Very small schools (fewer than 11 non-mobile students with STAR Program test scores) and schools that had no STAR Program test results in 2010 will not receive a 2010 Base API report.
