Action Requested: Determine if student has already been issued a high school diploma from country of origin; determine if student is establishing residence; determine if a student is an approved international exchange participant

Brief Explanation:

California Education Code regarding compulsory education requires that all minors between the ages of 6 and 18 without a high school diploma be enrolled in school.

International students seeking enrollment who are not yet 18 and have not yet obtained a high school diploma, and have established residency in our district may be enrolled. School counseling staff should assess the student's transcripts to determine the most appropriate course of study to support the student to be diploma bound.

International students seeking enrollment who are 18 or older, and do not have a high school diploma should be referred to the Adult Education Department, or to the San Diego Community College District.

International students seeking enrollment who are not yet 18, and have obtained a high school diploma from the country of origin may not be enrolled. These individuals should be referred to the San Diego Community College District.

International students who are not establishing residency, and are visiting San Diego for a short period of time (less than 1 semester) are not entitled to enrollment. Short term international visitors

are not permitted to attend district schools. Likewise, short term international visits are not permitted.

International exchange students must be sponsored by a program in the Registry of International Student Exchange Visitor Placement Organizations, and must submit the request to the Neighborhood Schools and Enrollment Options Office following District application procedures. Applications must be submitted by May 1 for fall enrollment consideration, and by October 1 for spring enrollment consideration. Applications are reviewed, and if pre approved, are forwarded to principals for consideration. International exchange students may only be enrolled in the school of residence of the host family, and only via this process. Due to the current COVID 19 closures and implementation of online learning for the interim, NSEO has contacted agencies of approved pupils to advise them that while our approved pupils are welcome to enroll, at this time there is no guarantee that these pupils will have the typical high school experience. Further information on SDUSD's international student exchange program is located at <https://sites.google.com/sandi.net/international-student-exchange/home>.

Please note, San Diego Unified is not certified as a Student and Exchange Visitor Program (SEVP), therefore, the District cannot issue Form I-20 to nonimmigrant students desiring to obtain F-1 visas. District policy holds that all students residing within the San Diego Unified School District attendance area can enroll in their school of residence.
