

**ADMINISTRATIVE CIRCULAR NO. 25**  
Office of Secondary Schools

**SAN DIEGO UNIFIED SCHOOL DISTRICT**

**Date:** October 6, 2015  
**To:** Middle and High School Principals  
**Subject:** School Health Profiles  
**Department and/or  
Persons Concerned:** Principals  
**Due Date:** March 1, 2016  
**Reference:** None  
**Action Requested:** Complete survey by March 1, 2016

**Brief Explanation:**

For more than twenty years, San Diego Unified School District has maintained a cooperative agreement with the Centers for Disease Control and Prevention (CDC). This partnership between the CDC and SDUSD fosters coordinated school health education for youth. As part of our cooperative agreement, every other year we conduct surveys of Principals and Lead Health Education Teachers to assess the status of school health education at the middle and senior high school levels. The data collected and presented as the School Health Profiles will be used to improve the delivery of health education to our students. It will also be used to provide key information to the district's Sexual Health Education Advisory Committee, LGBTQ+ Community Advisory Committee, and Wellness Committee and will inform curriculum revisions, staff training, and policy development.

Surveys will now be available online. Designated staff members will be notified in January of survey instructions. Additional information and survey links will be sent to designated school staff on February 1, 2016. Sexual Health Education Program Resource Teachers will be available to assist staff in completing the survey, and paper surveys will be available if needed. For additional assistance, please contact Rachel Miller at (619) 725-7121. To view 2014 survey data and for general information, view the [School Health Profiles](#) page on our district's website.
