

Tracking Student Progress in Edgenuity – Group Reports

(Adapted from eCommunity - <http://ecomunity.education2020.com/edgenuity-reports-overview/>)

Group Progress Report

Teachers, counselors and administrators are able to view student progress reports individually, or they may review a whole- group progress report. The progress overview demonstrates the currently available information about a group of students. The counselors and administrators at the school level will be able to view the reports for students enrolled at the site; district administrators will be able to view information for all students in all schools in the district as they navigate from school to school.

Group Progress Overview

This page gives an overview of progress for a group of students. Progress is calculated at the end of the day for each student, so these figures may be delayed up to 24 hours. To view the most current progress for a student, click on the student's name.

% (Time) - The percent complete weighted by time.
 % (Count) - The percent complete by number of assignments completed.
 RG - The relative grade which assumes that the user will receive zeros for any incomplete activities.
 OG - The overall grade for only work that the student has completed.
 AG - The actual grade based on the overall grade in relation to time elapsed.

Dashboard

The Dashboard feature is a user-friendly way of managing large groups of students from one centralized location. Teachers and Administrators can easily identify and intervene with students who are falling behind or who need additional support. Students who are prevented from progressing in the courses are also easily managed through the alert system, providing teachers with real-time data so they can effectively manage their students. With the wide range of filters available for courses and students, teachers can narrow the list of students that appear in the dashboard.

Attendance Log

The Attendance Log provides an overview of student attendance, either for the school or for specific groups of students. Teachers and Counselors can monitor the Attendance Log to view the total time a student spends daily, the number of assessments completed daily, or to monitor the weekly total time for each student.

Attendance Log For: Training School

Group: School Week Of: 5/30/201 OK
