

## **Instruction**

### **Graduation from Senior High School**

#### **PURPOSE AND SCOPE**

This administrative regulation outlines high school graduation requirements and eligibility to participate in commencement ceremonies.

The Board of Education is the authority within the San Diego Unified School District which prescribes graduation requirements in accordance with provisions of the California Education Code. Compliance by all schools is mandatory.

#### **GENERAL**

1. Diplomas and Certificates of Completion are issued as indicated below:
  - a. Diplomas are awarded to students who meet all general and course requirements for graduation specified in the Implementation Section below.
  - b. Certificates of Completion are presented to non-diploma-bound students receiving special education services who meet all the goals and objectives specified and consented to in their Individualized Education Programs (IEP). A Certificate of Completion is issued at the completion of the student's prescribed educational program. Students receiving Certificates of Completion are eligible to participate in commencement ceremonies.
  - c. No diploma, certificate or other document (except official transcripts) shall be conferred on a student as evidence of completion of a prescribed course of study or training, or of satisfactory attendance, unless the student has met the graduation requirements approved by the Board of Education, as outlined in the district's Course of Study, TK-12.
2. "Class of": Students are assigned a "Class of..." designation based on the year that they first enter Grade 9. The "Class of..." designation reflects the student's expected year of graduation – four years from the year the student first entered Grade 9.
3. Tracking Progress Toward Graduation/Credit-Based Grade Level:
  - a. At the beginning of each semester, students with:
    - (1) Nine or fewer credits are Grade 9 students.
    - (2) Between 10 and 20 credits are Grade 10 students.
    - (3) Between 21 and 30 credits are Grade 11 students.
    - (4) 31 or more credits are Grade 12 students.
  - b. A student's credit-based grade level may not exceed the grade level associated with his/her "Class of" designation.
  - c. The grade level of students working toward a Certificate of Completion (non-diploma-bound students) receiving special education services will not be based on credits earned but will be increased by one grade level each school year.

- d. San Diego Unified Credit Value: 1.0 credit per semester or quarter. All credits received out-of-district will be converted to meet San Diego Unified credit value, as needed.
4. A student who is severely credit deficient may work toward meeting all graduation requirements and shall be provided options for continuing his or her education. These options may include, but not be limited to, all of the following:
- a. Enroll in the San Diego Continuing Education and San Diego Unified School District Joint Adult High School Diploma Program.
  - b. Students at least 18 years of age may continue education through the district's Adult Education Program.
  - c. Continue enrollment in the school district.<sup>1</sup>
  - d. English Learners may continue in a fifth year of enrollment in the school district until graduation credits are earned.
  - e. Students with disabilities may continue at their school of attendance until age 22, as recommended by the student's IEP or 504 team.
  - f. Under the following Assembly Bills: AB 167/216, AB 1806, AB 2306, AB 365, and AB 2121, students in transition who are identified as foster youth, students in homeless situations, those transitioning from the juvenile justice system, active duty military dependents, migratory or newly arrived immigrant students (who are participating in English language proficiency programs, who are newly enrolled in SDUSD schools or transfer schools within SDUSD after their second year of high school) may be eligible to graduate by completing the minimum California state graduation requirements if they are not reasonably able to complete all San Diego Unified School District graduation requirements by the end of their fourth year of high school.

Students who graduate under AB 167/216, AB 1806, AB 2306, AB 365, or AB 2121 are not required to complete additional San Diego Unified School District requirements, which require a total of 44 credits.

## **IMPLEMENTATION**

- 1. General Requirements for Graduation:
  - a. GPA: Attain a weighted grade-point average (WGPA) of 2.00 or higher in Grades 9-12 by the end of the spring semester of the senior year, or by the end of summer school (for summer school graduates) as reflected on the final transcript.
  - b. Credits:
    - (1) Minimum of 44 semester credits earned in Grades 9-12: Specific subject requirements are identified below. Students on approved early graduation plans must meet the same requirements as referenced below.

---

<sup>1</sup> Attendance of students 18 years of age or older is a privilege, not a requirement. The principal may use discretion to determine whether to permit the enrollment of students over 18 years of age. Factors to be considered include: the amount of credits a student needs to complete diploma requirements, student attendance record and citizenship. Students over age 18 who are not permitted to enroll in regular high schools will be referred to the Adult Education Program. The decision of the site principal is final.

- (2) Credits earned in Grades 7 and 8: Mathematics (Integrated Math I A-B, Integrated I A-B ADV, Integrated Math II A-B, Integrated Math II A-B ADV) and Languages Other Than English courses taken in Grades 7 and 8 (except those taken at Independent World Language Schools [IWLS]) that meet high school graduation requirements are retained as permanent entries on students' high school transcripts and count towards the minimum 44 credits needed for graduation. Grades earned in such coursework are not included in the high school WGPA calculation. Note: Middle school IWLS credits will not be transcribed on San Diego Unified School District student transcripts (See Administrative Procedure 4771/Administrative Regulation 6146.11, Alternative Means of Satisfying the Prescribed Course of Study). Students must complete at least two years of mathematics courses while in Grades 9-12.

c. Attendance

- (1) Eight semesters, or equivalent, in Grades 9-12. Students should be scheduled for a regular full instructional day of not less than 360 minutes. (See Administrative Procedure 4026)
- (2) California AB 1012 requires that all students be enrolled in a full day of academic work each day, regardless of whether students can meet graduation requirements during a shortened day. All courses in which students are enrolled must have academic content. Administrative Circular 217 provides information on the Principal's Certification of Compliance in meeting the California AB 1012 standards.
- (3) Fewer instructional minutes may be specified in a student's IEP or 504 Plan.

d. Conduct: A record of responsible behavior according to the site's published discipline policies and in accordance with district policies and procedures.

e. All graduation requirements specified above must be satisfied prior to participation in commencement ceremonies.

2. Specific Subjects to be Completed and Credits Required for Graduation (All courses required for graduation must be University of California (UC) approved in the subject area specified, unless otherwise noted):

a. History/Social Science: Six semester credits in the "a" subject area, as follows:

- (1) Two credits (one year) in Modern World History and Geography 1,2, or an advanced alternative course as outlined in the district Course of Study, TK-12.
- (2) Two credits (one year) in United States History and Geography 1,2 or an advanced alternative as outlined in the district Course of Study, TK-12.
- (3) One credit in an American Government course and one credit in an Economics course or 2 credits in an advanced alternative course as outlined in the district Course of Study, TK-12. Economics is a district and state requirement [CA Education Code §51225.3] and counts as one semester of UC "g".

See Administrative Procedure 4771/Administrative Regulation 6146.11, Alternative Means of Satisfying the Prescribed Course of Study regarding alternate pathways to satisfy graduation requirements.

b. English Language Arts: Eight semester credits in the "b" subject area, as follows:

- (1) Two credits (one year) in English 1,2 or ELD 5,6 as outlined in the district Course of Study, TK-12.
- (2) Two credits (one year) in English 3,4 or an Advanced level course as outlined in the district Course of Study, TK-12.
- (3) At least one credit in a course that emphasizes a range of American or English literature, or an Advanced level course as outlined in the district Course of Study, TK-12.
- (4) Three additional credits in sequential order from the prescribed list of English courses as outlined in the district Course of Study, TK-12 (e.g., ERWC 1 followed by ERWC 2). Students should complete the entire year of coursework prior to moving into a different course of study.
- (5) English Language Arts credits can also be earned with alternative courses that have been approved to meet English Language Arts requirements through the completion of UCCI coursework as listed in the Course of Study TK-12.

See Administrative Procedure 4771/Administrative Regulation 6146.11, Alternative Means of Satisfying the Prescribed Course of Study regarding alternate pathways to satisfy graduation requirements.

- c. Mathematics: Six semester credits in the “c” subject area. All students must complete a minimum of two year-long mathematics courses while enrolled in Grades 9-12, per California Education Code. The six credits are as follows:
- (1) Two credits (one year) in Integrated Math I A-B or Integrated Math I A-B ADV as outlined in the district Course of Study, TK-12.
  - (2) Two credits (one year) in Integrated Math II A-B or Integrated Math II A-B ADV as outlined in the district Course of Study, TK-12.
  - (3) Two credits (one year) in Integrated Math III A-B or Integrated Math III A-B ADV as outlined in the district Course of Study, TK-12 or San Diego Community College District approved sequence as referenced in Site Operations Circular 2021.
    - (a) Note: Students who complete Integrated Math courses with a grade of “C” or higher in middle school should continue the Integrated Math course sequence upon entering high school. Statistics cannot be taken in lieu of Integrated Math III A-B and should only be taken after the completion of Integrated Math III A-B in order to satisfy the district’s math requirement.

See Administrative Procedure 4771/Administrative Regulation 6146.11, Alternative Means of Satisfying the Prescribed Course of Study, regarding higher level mathematics validation.

- d. Science: Six semester credits, as follows, effective with the Class of 2024:
- (1) Two credits (one year) in Biology 1,2, Biology 1,2 ADV, Biology HL1 IB 1,2, or AP Biology 1,2 as outlined in the district Course of Study, TK-12.
  - (2) Two credits (one year) in Chemistry 1,2, Chemistry 1,2 Honors, Chemistry HL1 IB 1,2 or AP Chemistry 1,2 as outlined in the district Course of Study, TK-12.

- (3) Two credits (one year) in Physics 1,2, Physics 1,2 ADV, Physics HL1 IB 1,2, or AP Physics I A,B as outlined in the district Course of Study, TK-12.
- (4) Only groups of students taking science coursework as a part of an approved pathway for CTE, advanced study, AP, or HL-IB science courses will qualify for an alternative science credit for graduation. School sites must submit the district science waiver and receive approval in order to offer an alternative science sequence for these groups. Without an approved science sequencing waiver, all other science classes outside of the Biology, Chemistry, and Physics sequence will be considered a 4th year of science.

See Administrative Procedure 4771/Administrative Regulation 6146.11, Alternative Means of Satisfying the Prescribed Course of Study regarding alternate pathways to satisfy graduation requirements.

- (5) Students transferring into the district from out of state or out of country who have completed Integrated Science courses with a grade of “D” or higher in Grades 9-12 will be awarded science credit toward graduation as follows:

Course	Year	Graduation Equivalent Credit
Integrated Science 1,2	1	Biology credit awarded
Integrated Science 3,4	2	Chemistry credit awarded
Integrated Science 5,6	3	Physics credit awarded

For specific details regarding transfer science requirements, reference Site Operations Circular 2001 Issuance of Science Credit for Out-of- District, Out-of-State and Out-of-Country Transfer Students.

- e. Languages Other Than English (LOTE): Four semester credits of sequential courses in the “e” subject area in the same LOTE as outlined in the district Course of Study, TK-12.

See Administrative Procedure 4771/Administrative Regulation 6146.11, Alternative Means of Satisfying the Prescribed Course of Study regarding meeting the LOTE requirement including the validation of lower LOTE courses by the successful completion of a higher LOTE course in the same language. Students transferring into San Diego Unified who have completed a world language course outside of the current district Course of Study, TK-12, and earned a grade of “D” or higher in any Grade 7-12 will be awarded world language credit according to the guidelines referenced in Site Operations Circular 1034, Issuance of World Language Credit, Out-of-State and Out-of-Country Transfer Students.

- f. Visual and Performing Arts (VAPA): One year (two semester credits) in the same course in the “f” subject area as outlined in the district Course of Study, TK-12.

See Administrative Procedure 4771/Administrative Regulation 6146.11, Attachment 2 for CCTE “a-g” approved courses for alternative means of meeting the VAPA requirement.

- g. College Preparatory Elective: One year (two semesters) in the “g” subject area as outlined in the school site’s approved UC “a-g” list.

3. Additional Requirements for Graduation:

- a. Physical Education: Four semester credits (two years)

- (1) Students must take physical education for all terms of Grade 9.

(2) Exemptions available:

Two-year Exemption: Education Code 51241(b)(1) permits school district Boards of Education to grant students in Grades 10 through 12 who have satisfactorily met at least five of the six standards on the state-mandated physical fitness test, the option of waiving courses in physical education for two years (Education Code Section 51241(b)). The following criteria must be met:

- (a) The student has scored in the Healthy Fitness Zone of the FITNESSGRAM® with a minimum of five of six standards administered in grade 9 pursuant to Education Code Section 60800.
- (b) The student has successfully completed 2 credits/1-year of physical education.
- (c) The 2 year exemption DOES NOT exempt the 4 PE credits required by the state.

Permanent Exemption Requirements: for students who have completed the 4 credits/2-year graduation requirement and meet the following requirements:

- (a) The student is 16 years old or older and has been enrolled in grade 10 for one or more academic years. (Education Code section 51241[c]1)
- (3) Students with disabilities must also meet the minimum 4 credit PE requirement. Refer to AR 6142.7 for the process of implementing accommodations to ensure PE credit is earned.

- b. Ethnic Studies: Students are required to take at least one course from the approved course list for Ethnic Studies as outlined in the district Course of Study, TK-12.
- c. Electives: Eight elective credits must be earned by completing additional district courses as outlined in the district Course of Study, TK-12. Courses do not need to be UC “a-g” approved.

4. Credit for San Diego Unified School District Online Learning Coursework:

- a. Graduation credit for district-approved online coursework is only granted as outlined in the district’s Course of Study, TK-12, Special Programs, from the online learning revision for iHigh. The course equivalency table for online and seat based courses should be referenced to ensure accurate course placement for graduation credit.

5. Computation of Weighted Grade-Point Average (WGPA):

- a. “A,” “B,” and “C” grades in Advanced Placement, qualifying International Baccalaureate, approved dual credit college courses, and University of California-approved honors courses are weighted.
- b. For weighted courses in the district Course of Study, TK-12 the WGPA is computed on a scale of: A=5, B=4, C=3, D=1 and F=0.
- c. For non-weighted courses, the WGPA is computed on a scale of: A=4, B=3, C=2, D=1 and F=0.
- d. For purposes of satisfying the 2.00 WGPA graduation requirement, the WGPA computation shall include courses taken in Grades 9-12.

- e. For purposes of establishing senior class standing and/or determining senior awards, the WGPA shall include courses taken in Grades 10-12 only. The WGPA shall be computed using the grades awarded through the end of the fall semester or second quarter of the senior year.
  - f. Honor Roll distinction will be granted to graduating students who attain a cumulative WGPA of 3.33 or better in Grades 10-12, computed at the end of the fall semester or second quarter of the senior year.
  - g. The Diploma with Academic Distinction is outlined in Site Operations Circular 2013, Process for Determining Academic Distinction.
6. Grade Suppression for Courses Taken Within the District: The intent of grade suppression is to encourage a student who receives a “D” or “F” to repeat the same course to improve the mark and the cumulative GPA. Grade suppression does not affect grades displayed on student progress reports. Courses that have been suppressed are not counted in graduation credits and are excluded from cumulative GPA calculations within the district. Student transcripts list both suppressed courses and retaken courses. A suppressed grade is indicated on a student’s transcript with an “R.” Additional suppression details and examples are found in Site Operations Circular 2002 Guidelines for Grade Suppression.
- a. In order for the grade suppression policy to apply, the mark in the original district course must be a “D” or “F,” and the student must repeat the exact course within the district Course of Study, TK-12. For compliance with California AB 1012, students may not repeat courses in which a “C” or better grade has been earned. Refer to Administrative Circular 217.
  - b. For grade suppression purposes, a student may repeat a course only until he or she receives a grade of “C” or better.
  - c. Suppression does not apply to courses taken at schools outside the district, including charter schools. Out-of-district suppression rules do not apply when transcribing.
  - d. The original course and the repeat of the course must be taken in different terms.
  - e. If grade suppression applies, the course in which the lower grade is earned is suppressed, regardless of the order in which the courses are taken. If the grade is the same, the earlier grade is suppressed.
7. Grade Replacement in Courses taken within a District Year-long Course: (For additional grade replacement details and examples, reference Site Operations Circular 2004 Guidelines for Grade Replacement)
- a. Grade replacement is limited to year-long district courses in the mathematics and Languages Other Than English (LOTE) subject areas. Year-long (as opposed to two semesters) courses are those in which the content of the second semester cannot be understood without the learning that occurred in the first semester. These courses have a dash in their course titles in the district Course of Study, TK-12 (i.e., Spanish 1-2; Integrated Math I A-B).
  - b. When a student earns an “F” grade in the first semester of a district year-long course and a passing grade (“D” or better) in the second semester of the district course, credit is earned for both semesters and a grade of “D” shall be recorded for the first semester. The grade replacement process is conducted manually at each school site by the registrar or site principal/administrator’s designee.

- c. When a student earns a passing grade for the first semester of a year-long course and an “F” grade for the second semester of that course, the second semester “F” grade shall be recorded. The first semester of a year-long course can never grade replace an academic mark earned in the second semester of the same year-long course.
- 8. Repeated Courses: In accordance with California AB 1012, effective with the 2016-17 school year students may not retake a course in which they have received a grade of “A,” “B,” or “C.” Refer to Administrative Circular 217.
- 9. Transfer Credit for New Students Entering the District:
  - a. Transcripts from accredited high schools are transcribed using San Diego Unified School District policies and procedures.
    - (1) Credits and grades recorded on the transcript are considered meeting subject requirements for high school graduation.
    - (2) Entry of grades and credits should be limited to approved courses comparable in content with the district Course of Study, TK-12. If a comparable district course is not available, the generic subject area course number (e.g., 6000 Science) should be used and awarded elective credit.
    - (3) Grades on transcripts will be accepted as recorded. If student earned academic letter grade of “A,” “B,” “C,” “D” or “F,” grades should be recorded as such. If grades are identified as “pass/fail” on their original transcript, grades should be entered as follows:
      - (a) Enter “pass” as “P” (credit); “fail” as “NP” (no pass); these grades are not included when computing grade point averages and may only be used when transcribing out of district students. Credit for graduation is allowed for a grade of “P.”
  - b. Transcripts from Non-accredited High Schools
    - (1) The site principal shall evaluate the recommended transcription of all such transcripts and course descriptions to approve the amount of credit to be given. Credits and grades approved for transfer credit by the principal are considered meeting the subject requirements for high school graduation. Entry of grades is described above.
  - c. Credit will be granted for coursework satisfactorily completed by a student while attending a public school, juvenile court school, or non-public, nonsectarian school or agency. (Education Code §48645.5)
- 10. Credit for High School Coursework Taken Outside of the District (including all charter schools) by Current District Students:
  - a. Beginning with the Class of 2016, to support students’ progress toward earning a high school diploma, graduation credit may be granted for coursework taken by students at Western Association of Schools and Colleges (WASC) accredited private institutions or non-district high schools outside the regular school day or school year (i.e., summer school) under the following conditions:
    - (1) Repeating a “D” or “F”: If a student has already taken a core course requirement in an SDUSD school and earned a letter grade (i.e., English, Mathematics, History, Social Studies, Science, World Language, Physical Education, Visual and

Performing Arts) a repeat course with the same content may be taken outside the district.

- (a) Grades earned in non-district coursework may not be used for grade suppression purposes.
- (b) Courses first taken within the district that are repeated at an accredited California high school outside of the district will receive core graduation credit only if those courses are listed on the issuing school's official UC "a-g" course list for the year in which the grade was earned.
- (c) Grades earned in non-district high school coursework will be included on the student's transcript and grades from both the district and non-district coursework will be used when calculating the student's WGPA. Only letter grades (i.e., "A," "B," "C," "D," and "F") may be used to record core coursework taken outside the district by district students. No "P" or "NP" grades should be recorded for repeat courses. Only courses taken for the first time or elective courses will earn a "P" or "NP."
- (d) When posting non-district coursework and grades for core courses that the student has already taken, the district course title and number listed in the district Course of Study, TK-12 that most closely matches the non-district course will be used. It must be noted that the course was taken outside the district.

(2) First time elective credit may be granted for coursework that does not meet core subject requirements taken by students at Western Association of Schools and Colleges (WASC) accredited private institutions, non-district high schools, or industry online virtual high schools outside the regular school day or school year. This elective credit does not earn a letter grade and will not be used when calculating a student's WGPA. Grades earned in non-district coursework may not be used for grade suppression purposes.

- (a) Reference Site Operations Circular 1001, Courses Taken at Non-District Schools by Students Enrolled in the District, dated July 28, 2015. Effective August 25, 2015, no first time credits from out-of-district, including charter schools, will be accepted towards meeting San Diego Unified graduation requirements. This includes courses taken during the summer school term at an out-of-district and/or charter school. Students who disenroll from SDUSD in order to enroll at a non-SDUSD school for first-time credit during the summer term, may not apply coursework taken at the non-SDUSD school towards SDUSD graduation requirements.
- (b) Enter "P" (pass/credit) for passing grades; enter "NP" (no pass/student will earn credits) for failing grades. Elective credit toward graduation is allowed for a grade of "P."
- (c) When posting grades for these courses, the generic subject area course number (e.g., 4000 for Mathematics) should be used. It must be noted that the course was taken outside the district.
- (d) Coursework that meets graduation requirements taken for the first time at a non-district or charter summer school program may only receive elective credit toward graduation with a grade of "P"/"NP." For the LOTE or mathematics graduation requirement, a non-district or charter school course, when taken in summer school, may be used to progress to the

next level in a district school when evidence of successful completion is presented to the school counselor; however, six credits of mathematics must be taken at a district secondary school (beginning in Grade 7), four of which must be completed in Grades 9-12. Note: Advancing to a higher level by taking non-district or charter school courses may result in a gap in learning or diminished preparation.

- (3) Graduation credit may be granted for district-approved coursework taken at Independent World Language Schools (IWLS) outside of the regular school day (e.g., Saturday classes) or school year (e.g., summer school) by students enrolled in Grades 9-12 in district high schools. A list of IWLS is available online at <https://www.sandiegounified.org/world-languages>.
  - (a) High school grades and credit earned for district-approved coursework taken in IWLS schools are accepted at face value and should be recorded in the same manner as grades earned in district coursework, using the appropriate IWLS course title and number listed in the district Course of Study, TK-12. It must be noted that the course was taken outside the district. IWLS sites submit grade reports to the student's high school of record at the end of each semester. Grades are manually recorded by the site registrar using the appropriate IWLS course title and number listed in the district Course of Study, TK-12.
  - (b) IWLS courses taken in Grades 7 and 8 do not count toward meeting San Diego Unified LOTE graduation requirements and do not get transcribed onto San Diego Unified School District transcripts.
  - (c) Grades earned in district-approved coursework taken at IWLS schools may not be used for grade suppression purposes or grade replacement.

- 11. High School Credit for College Coursework is described in Administrative Regulation 6172.1 and Site Operations Circular 2021.
- 12. Alternative Means of Satisfying the Prescribed Course of Study: To meet individual student needs and encourage students to complete their high school education, alternative means to complete the prescribed course of study are available to students in accordance with law. Alternative means adopted by the Board of Education are described in Administrative Procedure 4771/Administrative Regulation 6146.11.
- 13. Waivers and Certification of Graduates: State-mandated coursework as outlined in Education Code §51225.3(a)(1) may not be waived. Waivers to other requirements adopted by the governing board of the school district may be granted in specific cases with compelling circumstances. With the Area Superintendent's approval, the principal has the authority to grant waivers and will make the determination in each case. All such waivers must be documented on the Principal's Waiver of Graduation Requirements form (Attachment 2), the information filed in the student's permanent records folder at the school site, and the form retained at the school. The Principal's Certification of Graduates form (Attachment 1), including granted waiver(s), must be completed and submitted within two weeks after each graduation event (mid-year, June, or end of summer school) to the Office of Leadership and Learning.

In times of emergencies, such as a public health crisis in our county, state or country, the Board of Education may approve other types of waivers as appropriate.

- 14. Commencement Ceremonies:
  - a. Responsibility. As a representative of the Board of Education, the principal shall designate

those individuals who may participate in a commencement ceremony, approve the content of the program, and make all related decisions. Student participation is not required, but every eligible graduate who wishes to participate must adhere to the principal's and school's commencement ceremony rules if participation is to be approved. Any student who agrees to be a participant and then fails to follow the principal's direction is subject to disciplinary action. If a member of a graduating class is subject to disciplinary action, a diploma shall not be awarded at the commencement ceremony and specific approval of the Board of Education may be required before a transcript of that student's academic record is released.

b. Citizenship/Conduct Requirements:

- (1) To satisfy the requirements for graduation specified above (i.e., credits, WGPA) or the requirements for a Certificate of Completion specified above, students must maintain a minimum standard of 2.0 average in citizenship (see AR 5121) based on first semester grades and the second semester 12 week grading period and/or quarter 4 progress report during their senior year in order to participate in commencement ceremonies. [For possible exceptions, see below.]
- (2) Seniors will be denied participation in commencement ceremonies (and other senior activities) for zero tolerance infractions or activities resulting in a five-day suspension and may be denied participation for suspensions of less than five days during their senior year. Note: Students with disabilities receiving special education services who have received five-day suspensions may be exempt from this requirement if the student's Individualized Education Program or 504 team has conducted a Manifestation Determination meeting that resulted in the behavior being directly related to the student's disability, or the behavior resulting from a failure of the Local Educational Agency to implement the student's Individualized Education Program or 504 plan.
- (3) School Site Appeal Committee: Each site must establish an Appeal Committee comprised of, at a minimum, an administrator, a teacher, and a school counselor. Students with a citizenship average below 2.0 or a suspension of fewer than five days during their senior year may petition to the school site appeal committee to determine his/her level of participation in commencement ceremonies. Decisions of the School Site Appeal Committee are final.

c. Students receiving special education or 504 services who complete graduation requirements with UC "a-g" Coursework taught by highly qualified teachers while enrolled in special and/or alternative programs (i.e., non-public schools, Home and Hospital Instruction, Riley or New Dawn) may participate in commencement ceremonies at either their high school of residence (even if they have never attended that high school) or the high school they last attended. For additional information, reference Site Operations Circular 2006, Verification of High School Graduation Requirement Completion for Students Attending Alternative Sites.

d. Time and place. Commencement ceremonies shall be held on the school campus on the final day of instruction. Exceptions must be approved by the appropriate Area Superintendent. All selected venues will be accessible. Stages, if needed, will have ramp access from both directions.

e. Programs. Graduation ceremony programs must be labeled "Commencement Program" and should list names of students under "Class Roll." A class roll will not differentiate between students receiving diplomas and those receiving Certificates of Completion.

f. Ordering of diplomas and Certificates of Completion. (See Administrative Circular 206)

- g. Caps and gowns. The principal of each high school may establish site protocols regarding wearing of caps and gowns at commencement ceremonies. The district shall provide a cap and gown at no cost for each student who wishes to participate in commencement ceremonies. Approved graduation attire beyond caps and gowns are referenced in Site Operations Circular 2005, Student Participation in Commencement and Other Senior Activities.
  - h. Invocations. High school graduation must be secular. It is not permitted for students, clergy, or any other person to deliver an invocation as part of the commencement ceremony.
  - i. Baccalaureate services are prohibited. Such religious services held on school grounds or sponsored by school authorities have been deemed to violate the federal and state constitutional provisions guaranteeing the separation of church and state.
  - j. Recognition at graduation. All district high schools use the same criteria for selection of valedictorians and salutatorians for the current "Class of" students. The WGPA shall be computed using the grades awarded through the end of the Fall Semester/Quarter 2 of senior year, each school will designate the student with the highest cumulative weighted grade point average (WGPA) for Grades 10-12 who has met the district UC "a-g" requirements as graduating class valedictorian. The WGPA will be calculated to the nearest hundredth. Each school will designate the student with the second highest cumulative WGPA in Grades 10-12 as salutatorian. If two students are tied for valedictorian, both students will receive this honor, and the student with the next highest cumulative WGPA will be designated as the salutatorian. In addition, each school will determine how to recognize students who's cumulative WGPA for Grades 10-12 is 4.0 or better. The Diploma with Academic Distinction is outlined in Site Operations Circular 2013 Process for Determining Academic Distinction.
    - (1) Dual enrollment courses under our district CCAP and MOU agreements will factor into the WGPA for grades 10-12. However, students who opt to take a college course(s) outside of our district CCAP/MOU agreements as "concurrent enrollment" will not have the grade factor into the WGPA but can request to have the grade added to their SDUSD high school transcript as "Pass" or "No Pass."
15. Mid-Year and Early Graduates: Students who have completed all district graduation requirements by the end of the fall semester or the second quarter of their senior year shall be termed "Mid-Year/Early Graduates." Early graduates are defined in Site Operations Circular 2007 Early Graduation from High School. These students' diplomas will be available for pickup beginning the last day of the spring semester. The students may participate in June commencement ceremonies. Refer to Site Operations Circular 2007 for information on the early graduation request process.
16. Summer Graduates:
- a. Students may not participate in June commencement ceremonies at their individual high schools if they have:
    - (1) Earned fewer than 44 credits in required coursework, and/or
    - (2) Attained less than a 2.0 WGPA in Grades 9-12 final transcript coursework outlined above.
  - b. Students who complete district graduation requirements by the end of summer school following their senior year may also receive diplomas with their graduating class (i.e., "Class of"). A districtwide commencement ceremony may be offered in summer for students who wish to participate.

- c. Students who complete district graduation requirements after the end of summer school following their senior year will receive their diplomas with the following year's graduating class.
