The 3rd Annual Community Dialogue on Education will be held on Saturday, November 3, 2018 at Ibarra Elementary School from 8:30 to Noon. Our goal is to have parents, students and residents from the Crawford and Hoover Clusters come together to voice their goals for the children’s education for the 2019-2020 school year. For this event to be successful, we need facilitators and interpreters for at least the following languages:

- Amharic
- Arabic
- Burmese
- Karen
- Kizigua
- Somali
- Spanish
- Swahili
- French
- Vietnamese

At this event people will be seated at tables of 8 to 12 people based on their language. There may be more than one table for some language groups. The people at the table will be presented with 3 or 4 questions to discuss – having about 10 to 15 minutes per question. Each table needs a facilitator who speaks the language of the table and an interpreter. The facilitator will run the group while the interpreter will take notes and make sure anyone speaking another language at the table can be involved in the discussion.

The Orientation/Training will prepare people for these roles by making sure everyone understands what their role is as well as provide tips on how to facilitate and interpret. The session should last 60 to 90 minutes. It will be held on:

**October 25th, 2018 – 4-6pm**

Or

**October 30, 2018 – 9:30am-11:30am**
