Use That Planner – A Key to Success

Every Day:

1. Write your homework assignments in your planner daily. Get a parent signature daily. Be accountable for your work.
2. Don't forget to put your name on all papers and turn in homework assignments on time. Remember that a "ZERO" on homework greatly affects your grade.
3. Keep your 3-ring binder organized and bring it to school.
4. Attended class daily and be on time - no tardies.
5. If used, be responsible for Daily Progress Report.
6. Always have a book available to read in advisory or anytime you have free time.
7. No talking in class unless called on. Pay attention to your teachers. Be respectful to teachers and classmates.
8. Ask your teacher and/or counselor for extra help when needed. We all want you to succeed!

Last, but not least, remember that your main occupation during these teen-age years is to **LEARN** so that you will have the education and attitude, which will prepare you for a happy and satisfying future.

YOU are in control of your future.
