

## SENIORS: Important Info About College Apps!

- **AP Government and Government are only ONE semester.** If you are taking the class this semester put “in progress” if you are taking it next semester put “planned”. The other semester should be left blank.
- AP Gov & Government are paired with **Principles of Economics**. Principles of Economics is a “G” elective NOT a social science.
- **Common App:** the secondary school report (SR) can be found under the link “counselor forms”
- **CSU & UC GPA:** You must follow directions about how to recalculate GPA for applications. DO NOT just use the one you see on your transcript.
- Clarification about how to **send SAT/ACT scores...** *don't forget to check DUE DATES!*
  1. **CSU**
    - SAT—send to csumentor.edu (code 3594)
    - ACT—send to one CSU College, then use ACT Scores Manager to send to additional colleges
  2. **UC** (SAT and ACT): send to one UC College.
  3. **Private or Out of State:** send directly to college
- **PLEASE have someone else look over your application before it is sent!** We have already encountered many students who have submitted applications filled out incorrectly or with errors. Counselors are available and would love to double check your application after school on Tuesdays and Thursdays in room 405.
- **IMPORTANT:** Whenever in doubt call the college admissions office. *You do not want to be disqualified for not completing the application correctly!* Even small mistakes could look like you are falsifying information.
