## Bass Tournament and Scholarship

Our son, Brian, planned to earn a degree in Marine Biology. He was interested in all marine creatures, from the smallest fry to the enormous whales, and everything in between. It was truly a wonderful feeling to see his curiosity turn to fascination and then to research as he willingly sought to learn as much as possible about the marine environment and how each species relied on it.

Brian was 16 and a junior in High School when he was killed in an automobile collision in December of 1989. We host a fundraiser each year in April. The proceeds of this fundraiser will fund one or more scholarships. In this way, a student or students will be given the opportunity to achieve the dream that Brian was denied.

The scholarship(s) will be awarded to an individual who plans to pursue an education in Marine Biology at a four year college. Applicants must be a senior in High School, or currently attending a College or Junior College.

This scholarship will be paid directly to the "4 YEAR" college you plan to attend.

Typed or neatly printed applications must be postmarked by
