

EMAIL: Sent on 9-9-09 to Gregg Cantor, Jim Frager, and Matt Spathas

Hello gentlemen:

I have taken the liberty of assigning you to an Ad hoc Technology Committee.

With the i21 project being a significant portion of the bond work, the district staff has requested assistance from the ICOC to ensure that the project is executed efficiently and effectively.

I am requesting that this committee become a conduit for the ICOC to keep the ICOC informed as to the progress of this project.

Decisions relative to the i21 project will be reported to the ICOC by this ad hoc committee with any appropriate i21 decisions being made by the full ICOC committee.

I am hoping that you gentlemen will accept the challenge and opportunity to represent the ICOC.

Please get back to Linda by a week from today and let her know your decision.

From:

Gil Johnson
President Pro Tem
Independent Citizens' Oversight Committee
