

Take to Your SSCs

District Advisory Council

General Meeting

September 21, 2016

- Make sure to bring any information back and tell your SSC about events and trainings happening at the Ballard Center – all of these things are paid for using Title I dollars.
- Let your SSC know about our new Executive Director of Family and Community Engagement (FACE), Stan Anjan – how to get in touch with him and how he can help your school site.
- Talk to your SSC about what your school site's Family Engagement Plan will look like.
- Review helpful information from our Online Learning presentation from David Vande Pol. How can this information help the students at your school site?
- SSC Website Checklist – If you haven't filled out a check list for your school site, please go over the list at your next SSC meeting. If assistance is required for uploading and/or changing items on your school website, please email the SDUSD Webmaster @ webmaster@sandi.net
- Update your principal and SSC members on what the Title I Work Group will be reviewing at the end of the month and what changes may be happening with the implementation of Every Student Succeeds Act.
- School Site Councils are required as part of the Ed Code governing school districts in San Diego County. Review the configuration, responsibilities and roles of SSC members, and share them with your own SSC.
