NOTE: An incumbent in the job class of Integrated Technology Support Specialist I may be promoted to the next higher job class of Integrated Technology Support Specialist II upon certification by the section manager and approval by the department head that the incumbent meets the minimum qualifications listed on the current class description of the higher job class and is regularly performing a majority of the higher-level duties.

DISTINGUISHING CHARACTERISTICS:

An Integrated Technology Support Specialist I is an entry-level technology job classification. This job class is distinguished from the higher level Integrated Technology Support Specialist II and III in that the incumbent provides initial technical support services to end users with issues regarding software, hardware and networks; analyzes and provides solutions to complex and routine problems.

An Integrated Technology Support Specialist II performs more specialized, independent technical support of various components found in interactive technology classroom environments and central/school offices, in addition to performing similar technical support services as the Integrated Technology Support Specialist I.

An Integrated Technology Support Specialist III performs very specialized technical support, advanced trouble-shooting, and enterprise-wide administration of all district issued hardware and software, in addition to performing similar technical support services as the Integrated Technology Support Specialist II.
