

HEALTH CARE AND EMERGENCIES

Emergency Contact Information

In order to facilitate contact in case of an emergency or accident, the principal or designee shall annually request that parents/guardians provide the following information:

1. Home address and telephone number
2. Parent/guardian's business address and telephone number
3. Parent/guardian's cell phone number and email address, if applicable
4. Name, address, and telephone number of an alternative contact person to whom the student may be released and who is authorized by the parent/guardian to care for the student in cases of emergency or when the parent/guardian cannot be reached
5. Local physician to call in case of emergency

(cf. 5021 - Noncustodial Parents)
(cf. 5142 - Safety)

In addition, parents/guardians shall be encouraged to notify the school whenever their emergency contact information changes.

Notification/Consent for Medical Treatment

Whenever a student requires emergency or urgent medical treatment while at school or a school-sponsored activity, the principal or designee shall contact the parent/guardian or other person identified on the emergency contact form in order to obtain consent for the medical treatment.

If the student's parent/guardian or other contact person cannot be reached to provide consent, the principal may seek reasonable medical treatment for the student as needed, unless the parent/guardian has previously filed with the district a written objection to any medical treatment other than first aid.

(cf. 5141.21 - Administering Medication and Monitoring Health Conditions)

A person who has filed with the district a completed caregiver's authorization affidavit pursuant to Family Code 6550-6552 shall have the right to consent to or refuse school-related medical care on behalf of the minor student. The caregiver's authorization shall be invalid if the district receives notice that the minor student is no longer living with the caregiver or if the Superintendent or designee has actual knowledge of facts contrary to those stated on the affidavit. (Family Code 6550)

(cf. 5111.1 - District Residency)

HEALTH CARE AND EMERGENCIES (continued)

The caregiver's consent to medical care shall be superseded by any contravening decision of the parent or other person having legal custody of the student, provided that this contravening decision does not jeopardize the student's life, health, or safety. (Family Code 6550)

Consent by Minor for Hospital and/or Medical Care

A minor 15 years of age or older who is living separate and apart from his parents or legal guardian, whether with or without consent of a parent or guardian and regardless of the duration of such separate residence, and who is managing his/her own financial affairs, regardless of the source of income, may give consent to hospital care or any X-ray examination, anesthetic, or medical or surgical diagnosis or treatment to be rendered by a physician and surgeon licensed under provisions of State Medical Practice Act, or to hospital care or any X-ray examination, anesthetic, dental or surgical diagnosis or treatment to be rendered by a dentist licensed under provisions of the Dental Practice Act. Such consent shall not be subject to disaffirmance because of the student's status as a minor.

The parent, parents, or legal guardian shall not be liable for any care rendered pursuant to this section.

A physician and surgeon or dentist may, with or without the consent of the minor patient, advise the parents, parent, or legal guardian of such minor of the treatment given or needed if the physician and surgeon or dentist has reason to know, on the basis of the information given him by the minor, the whereabouts of the parents, parent or legal guardian. (Civil Code Section 34.6)

Automated External Defibrillators

When an automated external defibrillator (AED) is placed in a district school, the Superintendent or designee shall notify an agent of the local emergency medical services agency of the existence, location, and type of AED acquired. (Health and Safety Code 1797.196, 1797.200)

The Superintendent or designee shall ensure that any AED placed at a district school is maintained and tested according to the operation and maintenance guidelines set forth by the manufacturer. (Health and Safety Code 1797.196)

The Superintendent or designee shall develop a written plan which describes the procedures to be followed in the event of a medical emergency, including an emergency that may involve the use of an AED. These procedures should include, but not be limited to, requirements for immediate notification of the 911 emergency telephone number in the event of an emergency that may involve the use of an AED.

(cf. 0450 - Comprehensive Safety Plan)

HEALTH CARE AND EMERGENCIES (continued)

The principal of any district school with an AED shall annually provide information to school employees that describes: (Health and Safety Code 1797.196)

1. Sudden cardiac arrest
2. The school's emergency response plan
3. The proper use of an AED

Instructions on how to use the AED, in no less than 14-point type, shall be posted next to every AED. In addition, school employees shall be notified annually of the location of all AED units on campus. (Health and Safety Code 1797.196)

(cf. 4112.9/4212.9/4312.9 - Employee Notifications)

Each AED shall be checked for readiness at least biannually and after each use. In addition, the Superintendent or designee shall ensure that an inspection is made of all AEDs at least every 90 days for potential issues related to operability of the device, including a blinking light or other obvious defect that may suggest tampering or that another problem has arisen with the functionality of the AED. The Superintendent or designee shall maintain records of these checks. (Health and Safety Code 1797.196)

(cf. 3580 - District Records)
