

INDEPENDENT STUDY

Independent study is an alternative instructional strategy that is offered at the district’s discretion. School districts are not obliged to permit a student to participate in independent study if school officials determine that independent study is not an appropriate alternative method of instruction for the student. (Title 5 California Code of Regulations 11700)

Independent study may be offered in any of the following situations below:

1. To accommodate a student’s temporary absence. A student who is usually in classroom attendance but who will be temporarily out of school for any reasonable excuse, including illness, may participate in independent study to earn academic credit and, within limits, generate ADA.

The maximum duration of an independent study program to accommodate a temporary absence is one semester (or one-half year in single-track school sites); Education Code does not specify a 20-day limit.

A signed agreement must be in effect on or before the first day of the assignment and the academic work must be completed by the date indicated.

Schools must inform parents that academic credit can still be earned once a student returns to regular classroom attendance. Students shall be allowed to complete all assignments and tests missed during the absence within a reasonable period of time and shall be given full credit for their successful completion thereof. Tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the student missed during the absence. (Education Code 48205)

Requests to accommodate a student’s temporary absence are made on an individual basis.

2. To participate in an extra or special course outside the school day. A student enrolled in a comprehensive school site may earn academic credit by completing an extra or special course outside the regular school day of attendance. Such independent study may not be offered during the regular school day.

An extra or special course completed through independent study outside the school day is defined as a course that exceeds the requirements for graduation in a specified subject area, including **physical education**, and is used as an elective course for graduation.

High school credit earned in independent study courses taken outside the regular school day must be in subjects included in the Uniform Course File. Such independent study coursework does not earn a letter grade and will not be used when calculating a student’s weighted grade point average. Such coursework will earn elective graduation credit only.

INDEPENDENT STUDY (continued)

3. Full academic program. A student may enroll in a full academic program that offers independent study as the primary instructional strategy.

Educational Opportunities

Educational opportunities offered through independent study may include, but are not limited to: (Education Code 51745)

1. Special assignments extending the content of regular courses of instruction

(cf. 6143 - Courses of Study)

2. Individualized study in a particular area of interest or in a subject not currently available in the regular school curriculum

3. Individualized alternative education designed to teach the knowledge and skills of the core curriculum, but not provided as an alternative curriculum

4. Continuing and special study during travel

(cf. 5112.3 - Student Leave of Absence)

5. Volunteer community service activities and leadership opportunities that support and strengthen student achievement

(cf. 0420.4 - Charter School Authorization)

(cf. 6142.4 - Service Learning/Community Service Classes)

(cf. 6181 - Alternative Schools/Programs of Choice)

In addition, when requested by a parent/guardian due to an emergency, vacation, or illness, independent study may be used on a short-term basis to ensure that the student is able to maintain academic progress in his/her regular classes.

(cf. 5113 - Absences and Excuses)

No course required for high school graduation shall be offered exclusively through independent study. (Education Code 51745)

(cf. 6146.1 - High School Graduation Requirements)

Equivalency

The district's independent study option shall be substantially equivalent in quality and quantity to

INDEPENDENT STUDY (continued)

classroom instruction to enable participating students to complete the district's adopted course of study within the customary timeframe. Students in independent study shall have access to the same services and resources that are available to other students in the school and shall have equal rights and privileges. (5 CCR 11700, 11701.5)

(cf. 0410 - Nondiscrimination in District Programs and Activities)

The district shall not provide independent study students and their parents/guardians with funds or items of value that are not provided for other students and their parents/guardians. (Education Code 46300.6, 51747.3)

Eligibility for Independent Study

Independent study is conducted under the supervision of a credentialed district employee.

Provided that experienced certificated staff are available to effectively supervise students in independent study, the Superintendent or designee may approve the participation of a student who demonstrates the motivation, commitment, organizational skills, and academic skills necessary to work independently. A student whose academic performance is not at grade level may participate in independent study only if the program is able to provide appropriate support, such as supplemental instruction, tutoring, counseling, ongoing diagnostic assessments, and/or differentiated materials, to enable the student to be successful. For an elementary student, the Superintendent or designee may consider the parent/guardian's level of commitment to assist the student.

A student participating in independent study must be a resident of the county or an adjacent county. Full-time independent study shall not be available to students whose district residency status is based on their parent/guardian's employment within district boundaries pursuant to Education Code 48204. (Education Code 46300.2, 51747.3)

(cf. 5111.1 - District Residency)

For a student with disabilities, as defined in Education Code 56026, participation in independent study shall be approved only if his/her individualized education program specifically provides for such participation. (Education Code 51745)

(cf. 6159 - Individualized Education Program)

A temporarily disabled student shall not receive individual instruction pursuant to Education Code 48206.3 by means of independent study. (Education Code 51745)

(cf. 6183 - Home and Hospital Instruction)

INDEPENDENT STUDY (continued)

Students age 21 or older, and students age 19 or older who have not been continuously enrolled in school since their 18th birthday, may participate in independent study only through the adult education program for the purpose of enrolling in courses required for a high school diploma by Education Code 51225.3 or the Board of Education. (Education Code 46300.1, 46300.4)

(cf. 6200 - Adult Education)

No more than 10 percent of the students enrolled in a continuation high school or opportunity school or program, not including pregnant students and parenting students who are primary caregivers for one or more of their children, shall be enrolled in independent study. (Education Code 51745)

(cf. 5146 - Married/Pregnant/Parenting Students)

(cf. 6184 - Continuation Education)

Master Agreement

A written agreement shall be developed and implemented for each student participating in independent study for five or more consecutive school days. (Education Code 46300, 51747; 5 CCR 11703)

The agreement shall include general student data, including the student's name, address, grade level, birth date, school of enrollment, and program placement.

The independent study agreement for each participating student also shall include, but not be limited to, all of the following: (Education Code 51747; 5 CCR 11700, 11702)

1. The manner, time, frequency, and place for submitting the student's assignments and for reporting his/her progress
2. The objectives and methods of study for the student's work and the methods used to evaluate that work
3. The specific resources, including materials and personnel, that will be made available to the student
4. A statement of the Board's policy detailing the maximum length of time allowed between an assignment and its completion and the number of missed assignments, by grade level and type of program, which will trigger an evaluation of whether the student should be allowed to continue in independent study

INDEPENDENT STUDY (continued)

5. The duration of the independent study agreement, including the beginning and ending dates for the student's participation in independent study under the agreement, with a maximum of one school year
6. A statement of the number of course credits or, for an elementary student, other measures of academic accomplishment appropriate to the agreement, to be earned by the student upon completion
7. A statement that independent study is an optional educational alternative in which no student may be required to participate
8. In the case of a suspended or expelled student who is referred or assigned to any school, class, or program pursuant to Education Code 48915 or 48917, a statement that instruction may be provided through independent study only if the student is offered the alternative of classroom instruction

(cf. 5144.1 - Suspension and Expulsion/Due Process)

9. Signatures of the student, the parent/guardian or caregiver of the student if the student is under age 18 years, the certificated employee responsible for the general supervision of independent study, and all persons who have direct responsibility for providing assistance to the student

The parent/guardian's signature on the agreement shall constitute permission for the student to receive instruction through independent study.

Course-Based Independent Study

The district shall offer a course-based independent study program for students in grades K-12 subject to the following requirements: (Education Code 51749.5)

1. Courses shall be taught under the general supervision of certificated employees who hold the appropriate subject matter credential and are employed by the district or by another district, charter school, or county office of education with which the district has a memorandum of understanding to provide the instruction.

(cf. 4112.2 - Certification)

2. Courses shall be annually certified by Board resolution to be of the same rigor and educational quality as equivalent classroom-based courses and shall be aligned to all relevant local and state content standards. This certification shall, at a minimum, include the duration, number of equivalent daily instructional minutes for each school day that student is enrolled, number of equivalent total instructional minutes, and number of course credits for each course, consistent with that of equivalent classroom-based courses.

INDEPENDENT STUDY (continued)

3. Students enrolled in these courses shall meet the applicable age requirements established pursuant to Education Code 46300.1 and 46300.4 and the applicable residency and enrollment requirements established pursuant to Education Code 46300.2, 48204, and 51747.3.
4. Teachers shall communicate with each student in person, by telephone, or by any other live visual or audio connection at least twice per calendar month to assess whether the student is making satisfactory educational progress. For this purpose, satisfactory educational progress includes, but is not limited to, applicable statewide accountability measures and the completion of assignments, examinations, or other indicators that the student is working on assignments, learning required concepts, and progressing toward successful completion of the course, as determined by the teacher providing instruction.

Written or computer-based evidence of satisfactory educational progress shall be retained for each course and student, including, at a minimum, a grade book or summary document that lists all assignments, examinations, and associated grades for each course.

If satisfactory educational progress is not being made, the teacher shall notify the student and, if the student is under age 18 years, his/her parent/guardian. The teacher shall conduct an evaluation to determine whether it is in the student's best interest to remain in the course or whether he/she should be referred to an alternative program, which may include, but is not limited to, a regular school program. A written record of the evaluation findings shall be a mandatory interim student record maintained for three years from the date of the evaluation. If the student transfers to another California public school, the record shall be forwarded to that school.

(cf. 5125 - Student Records)

5. Examinations shall be administered by a proctor.
6. Statewide testing results shall be reported and assigned to the school at which the student is enrolled and shall be included in the aggregate results of the district. Test results also shall be disaggregated for purposes of comparisons with the test results of students enrolled in classroom-based courses.

(cf. 6162.51 - State Academic Achievement Tests)

7. A student shall not be required to enroll in courses included in this program.
8. The student-teacher ratio in the courses in this program shall meet the requirements of Education Code 51745.6.
9. For each student, the combined equivalent daily instructional minutes for courses in this

INDEPENDENT STUDY (continued)

program and all other courses shall meet applicable minimum instructional day requirements, and the student shall be offered the minimum annual total equivalent instructional minutes pursuant to Education Code 46200-46208.

(cf. 6111 - School Calendar)

(cf. 6112 - School Day)

10. Courses required for high school graduation or for admission to the University of California or California State University shall not be offered exclusively through independent study.
11. A student participating in this program shall not be assessed a fee that is prohibited by Education Code 49011.

(cf. 3260 - Fees and Charges)

12. A student shall not be prohibited from participating in independent study solely on the basis that he/she does not have the materials, equipment, or Internet access necessary to participate in the course.

Before enrolling a student in a course within this program, the Superintendent or designee shall provide the student and, if the student is under age 18 years, his/her parent/guardian with a written learning agreement that includes all of the following: (Education Code 51749.6)

1. A summary of the district's policies and procedures related to this program
2. The duration of the enrolled course(s) and the number of course credits for each enrolled course, consistent with the Board certifications made pursuant to item #2 above
3. The duration of the learning agreement, which shall not exceed a school year or span multiple school years
4. The learning objectives and expectations for each course, including, but not limited to, a description of how satisfactory educational progress is measured and when a student evaluation is required to determine whether the student should remain in the course or be referred to an alternative program, which may include, but is not limited to, a regular school program
5. The specific resources, including materials and personnel, that will be made available to the student
6. A statement that the student is not required to enroll in courses in this program
7. Signatures of the student, the student's parent/guardian if the student is under age 18 years, and all teachers providing instruction

INDEPENDENT STUDY (continued)

The student's or parent/guardian's signature shall constitute permission for the student to receive instruction through independent study. (Education Code 51749.6)

The Superintendent or designee shall retain a physical or electronic copy of the signed learning agreement for at least three years and as appropriate for auditing purposes. (Education Code 51749.6)

Monitoring Student Progress

The independent study administrator and/or supervising teacher shall promptly and directly address any failure by the student to meet the terms of his/her written agreement. The following supportive strategies may be used:

1. A letter to the student and/or parent/guardian
2. A meeting between the student and the teacher and/or counselor
3. A meeting between the student and the independent study administrator, including the parent/guardian if appropriate
4. An increase in the amount of time the student works under direct supervision

When the student has missed the number of assignments specified in the written agreement as requiring an evaluation, the Superintendent or designee shall conduct an evaluation to determine whether or not independent study is appropriate for the student. This evaluation may result in termination of the independent study agreement and the student's return to the regular classroom program or other alternative program.

A written record of the findings of any such evaluation shall be treated as a mandatory interim student record which shall be maintained for three years from the date of the evaluation. (Education Code 51747)

Independent study students who are late, miss scheduled conferences, or do not submit assigned work on time shall not be reported as tardy or truant.

Responsibilities of Independent Study Administrator

The ratio of student average daily attendance for independent study students age 18 years or younger to full-time equivalent certificated employees responsible for independent study shall not exceed the equivalent ratio for all other education programs in the district, unless a new higher or lower ratio for all other educational programs offered is negotiated in a collective bargaining agreement or the district enters into a memorandum of understanding that indicates an existing collective bargaining agreement contains an alternative ratio. (Education Code 51745.6)

The responsibilities of the supervising teacher shall include, but are not limited to:

1. Completing designated portions of the written independent study agreement
2. Supervising and approving coursework and assignments

4. As appropriate to the program in which the students are participating, a daily or hourly attendance register that is separate from classroom attendance records, maintained on a current basis as time values of student work products judged by a certificated teacher, and reviewed by the supervising teacher if they are two different persons

(cf. 3580 - District Records)

The Superintendent or designee also shall maintain a record of grades and other evaluations issued to each student for independent study assignments.
