STUDENT USE OF TECHNOLOGY

The Board of Education intends that technological resources provided by the district be used in a safe and responsible manner in support of the instructional program and for the advancement of student learning. All students using these resources shall receive instruction in their proper and appropriate use.

(cf. 0440 - District Technology Plan)
(cf. 1113 - District and School Web Sites)
(cf. 1114 - District-Sponsored Social Media)
(cf. 4040 - Employee Use of Technology)
(cf. 6163.1 - Library Media Centers)

Teachers, administrators, and/or library media specialists are expected to review the technological resources and online sites that will be used in the classroom or assigned to students in order to ensure that they are appropriate for the intended purpose and the age of the students.

The Superintendent or designee shall notify students and parents/guardians about authorized uses of district technology, user obligations and responsibilities, and consequences for unauthorized use and/or unlawful activities in accordance with this Board policy and the district's Acceptable Use Agreement.

District technology includes, but is not limited to, computers, the district's computer network including servers and wireless computer networking technology (wi-fi), the Internet, email, USB drives, wireless access points (routers), tablet computers, smartphones and smart devices, telephones, cellular telephones, personal digital assistants, pagers, MP3 players, wearable technology, any wireless communication device including emergency radios, and/or future technological innovations, whether accessed on or off site or through district-owned or personally owned equipment or devices.

Before a student is authorized to use district technology, the student and his/her parent/guardian shall sign and return the Acceptable Use Agreement. In that agreement, the parent/guardian shall agree not to hold the district or any district staff responsible for the failure of any technology protection measures or user mistakes or negligence and shall agree to indemnify and hold harmless the district and district staff for any damages or costs incurred.

(cf. 6162.6 - Use of Copyrighted Materials)

The district reserves the right to monitor student use of technology within the jurisdiction of the district without advance notice or consent. Students shall be informed that their use of district technology, including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, is not private and may be accessed by the district for the purpose of ensuring proper use. Students have no reasonable expectation of privacy in use of the district technology. A student’s personally owned device may be searched in cases where there is a reasonable suspicion, based on specific and objective facts, that the search will uncover evidence of a violation of law, district policy, or school rules.
STUDENT USE OF TECHNOLOGY (continued)

(cf. 5145.12 - Search and Seizure)

The Superintendent or designee may gather and maintain information pertaining directly to school safety or student safety from the social media activity of any district student in accordance with Education Code 49073.6 and BP/AR 5125 - Student Records.

(cf. 5125 - Student Records)

Whenever a student is found to have violated Board policy or the district's Acceptable Use Agreement, the principal or designee may cancel or limit a student's user privileges or increase supervision of the student's use of the district's equipment and other technological resources, as appropriate. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and Board policy.

(cf. 5125.2 - Withholding Grades, Diploma or Transcripts)
(cf. 5144 - Discipline)
(cf. 5144.1 - Suspension and Expulsion/Due Process)
(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

The Superintendent or designee, with input from students and appropriate staff, shall regularly review and update procedures to enhance the safety and security of students using district technology and to help ensure that the district adapts to changing technologies and circumstances.

Seizure

School personnel may confiscate student-owned Electronic Communication Devices (ECDs) when they have reasonable cause to believe that ECDs have been used to bully or harass other students or employees of the school district, or use of ECDs will materially and substantially disrupt school activities. Confiscated ECDs shall be stored by school district employees in accordance with the following:

1. Each school site shall designate a specific drawer or cabinet in the main office where confiscated items can be securely locked and stored.

2. Access to the keys to the above-referenced drawer or cabinet shall be limited to one or two persons only. The keys shall not be maintained in public view.

3. The school site shall maintain a log in the locked drawer or cabinet indicating the date and time an item was confiscated, by whom, the name of the student whose property was confiscated, a description of the item, and when it was retrieved. The parent or guardian retrieving the item must print his/her name, relationship, date and time of retrieval, and sign the log indicating receipt of the property.
INTERNET SAFETY

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that protects against access to visual depictions that are obscene, child pornography, or harmful to minors and that the operation of such measures is enforced. (20 USC 6777; 47 USC 254; 47 CFR 54.520)

To reinforce these measures, the Superintendent or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities.

**Harmful matter** includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

The district's Acceptable Use Agreement shall establish expectations for appropriate student conduct when using the Internet or other forms of electronic communication, including, but not limited to, prohibitions against:

1. Accessing, posting, submitting, publishing, or displaying harmful or inappropriate matter that is threatening, obscene, disruptive, or sexually explicit, or that could be construed as harassment or disparagement of others based on their race/ethnicity, national origin, sex, gender, sexual orientation, age, disability, religion, or political beliefs

   (cf. 5131 - Conduct)
   (cf. 5131.2 - Bullying)
   (cf. 5145.3 - Nondiscrimination/Harassment)
   (cf. 5145.7 - Sexual Harassment)
   (cf. 5145.9 - Hate-Motivated Behavior)

2. Intentionally uploading, downloading, or creating computer viruses and/or maliciously attempting to harm or destroy district equipment or materials or manipulate the data of any other user, including so-called "hacking"

3. Distributing personal identification information, including the name, address, telephone number, Social Security number, or other personally identifiable information, of another student, staff member, or other person with the intent to threaten, intimidate, harass, or ridicule that person

4. Using electronic communication devices to video or voice record in any way or under any circumstances which infringe the privacy rights of other students, staff members or other persons.
STUDENT USE OF TECHNOLOGY (continued)

The Superintendent or designee shall provide age-appropriate instruction regarding safe and appropriate behavior on social networking sites, chat rooms, and other Internet services. Such instruction shall include, but not be limited to, the dangers of posting one's own personal identification information online, misrepresentation by online predators, how to report inappropriate or offensive content or threats, behaviors that constitute cyberbullying, and how to respond when subjected to cyberbullying.
