Welcome to the San Diego Unified School District and our 2020-21 enrollment guide. We’re honored to serve the best students in the State of California, and we can’t wait to help you and your family achieve your dreams for the future.

Across San Diego Unified, you will find outstanding neighborhood schools at every level. Our high schools have the highest graduation rate in the state.* San Diego Unified elementary and middle schools have demonstrated superior academic progress in recent years when compared to other American cities. (Source: “San Diego students stand out nationwide with test score improvements,” by Laurny Schreuder for the Union Tribune, April 10, 2018.)

Beyond strong academics, the foundations of a San Diego Unified education include: access to the arts and music in every school; advanced technology, offering every student his/her own computer; scholarship level athletics in high school and a focus on health and wellness at every grade; and, an education in leadership and civic responsibility. These are the commitments we make to all students and to every family.

We encourage parents to be our partners in the education of their children and 95 percent of our schools have a PTA, a parent-led foundation, or a parent center for families to meet regularly. Please consider this guide an invitation to visit your neighborhood school. We would be happy to schedule a tour for you via email at tours@sandi.net.

On behalf of our entire team of world-class teachers, talented administrators and dedicated support staff, thank you for taking the time to learn more about your San Diego Unified school options. Together, we are working to make sure every student graduates with the skills, knowledge and passion necessary to meet their goals in the communities we serve. Together, we are building a better world for everyone, and I encourage you to follow along with our work at #BetterSD.

Thank you!
Cynthia “Cindy” Marten
Superintendent, San Diego Unified School District

* Refers to all big-city school districts as analyzed by the California Department of Education for the academic year 2018-19, the last year available at this time.

department.com
On behalf of the Board of Education, thank you for taking the time to learn more about the educational opportunities we offer to every one of you. We have worked hard to build a strong system with equality and equity at the core. Because of this shared commitment, I can say with confidence that our schools look dramatically different than they did even a few years ago. Many schools feature state-of-the-art performing arts spaces, technology labs, and athletic facilities. Our goal has been to ensure everyone has an opportunity to learn in a school system that works for everyone, which is why we are particularly excited about our new Magnet Schools Program, which offers students the opportunity to learn in schools aligned with the pathways emphasized by their local high schools.

New priorities include those for: Language Academy, and Longfellow must meet foreign language requirements to apply for Longfellow. Every San Diego Unified high school offers college and career “Pathways” aligned with the pathways emphasized by their local high schools. Transfers from the non-resident school and then wish to return must resubmit a School Choice application, and are subject to all enrollment eligibility and other criteria. Transfer Request form, and have the agreement of the student and the resident school before the transfer can take place. If the student was rescued in another school, an independent structure permit must be completed. Students who enroll in a Magnet School when they are new to the SDUSD system (such as Charter, private, or home school students) must file an Enrollment Options Request for further information. Dana (grades 5 and 6) and Correia (grades 4 and 5) are new to the SDUSD system (such as Charter, private, or home school students) must file an Enrollment Options Request for further information. Dana (grades 5 and 6) and Correia (grades 4 and 5) are new to the SDUSD system (such as Charter, private, or home school students) must file an Enrollment Options Request for further information. Dana (grades 5 and 6) and Correia (grades 4 and 5) are new to the SDUSD system (such as Charter, private, or home school students) must file an Enrollment Options Request for further information. Dana (grades 5 and 6) and Correia (grades 4 and 5) are new to the SDUSD system (such as Charter, private, or home school students) must file an Enrollment Options Request for further information.
San Diego Unified Preschool provides a foundation for learning, both socially and academically. Preschool students learn language development, literacy, mathematics, science, movement and music. San Diego Unified School District’s Pre-K For All Program provides children with the critical foundational skills, strategies, and experiences that promote success in school and beyond the Pre-K For All Program.

Preschools enroll year round. There are over 60 State preschool and Head Start sites in San Diego Unified, and there are many schedule options. Priority application for the following school year begins in late April each year.

Preschools operate for 10 months out of each year. Options include 3 hours, 6 hours and 6.5 hour programs. Students must be age 3 by December 1, or 4 by September 1 to participate. Free or reduced cost options may be available. If you would like to apply for one of these programs, you will need to provide proof of income (pay stubs must be current within 30 days of registration, at least two consecutive pay stubs for the most recent one month’s pay, or Leave Service Earnings, Notice of Action or statement from caseworker must be provided.)

For personal assistance, applications, or to schedule an intake appointment for Pre-K For All Program, please call Neighborhood Schools and Enrollment Options at (619) 260-2410, or visit us at 4100 Normal Street, Annex 12, between the hours of 9 am and 4 pm. Coming soon: an online application process.

Preschools enroll year round, there are over 60 State preschool and Head Start sites in SDUSD, and there are many schedule options. Priority application for the following school year begins in late April each year.

Required Documents for Enrollment application:

- PK-12 Enrollment Form
- Certification of Parent Application
- Child’s Health Record
- Health Screenings Form
- CAIR form
- Immunization Record
- Proof of Residence (Acceptable documents: utility bills such as telephone, gas and electric, water, cable, correspondence from the Department of Social Services, or rental agreement.)
- Enrolling Child’s Birth Certificate
- Sibling(s) Birth Certificate

* Proof of Residence (Acceptable documents: utility bills such as telephone, gas and electric, water, cable, correspondence from the Department of Social Services, or rental agreement.)
* Enrolling Child’s Birth Certificate
* Sibling(s) Birth Certificate
Students start their K-12 academic journey through San Diego Unified in one of our many outstanding neighborhood elementary schools. In comparison with schools in other American cities, San Diego Unified elementary and middle schools have demonstrated superior academic progress in recent years. (Source: “San Diego students stand out nationwide with test score improvements,” by Lauryn Schroeder for the Union Tribune, April 10, 2018.) Elementary school is an opportunity for students to begin exploring their world and interacting with the academic subjects that will shape their future. All elementary schools offer access to the arts and music. Most also provide extended care options to support working parents. We encourage every parent to schedule a tour of their neighborhood school to learn more about the programs and opportunities that are available. Tours are available at tours@sandi.net.
The San Diego Unified School District is proud to call itself one of the top large urban school districts in the United States. Measures include our top scores on state and national tests, and our leadership in areas such as academic excellence, technology, the arts, and student health. Strong academics are at the core of our mission to make sure every child graduates ready to succeed in college, a career, and the community where they live. We have acted to raise graduation standards and students have responded by achieving the highest graduation rate of any big-city district in the state. We have schools across the city that offer Science, Technology, Engineering, Arts, and Math (STEAM) programs, International Baccalaureate (IB) instruction, Advanced Placement (AP) courses, courses for college credit, and dual-language classrooms.

Global Citizenship

**BENCHLEY/WEINBERGER COMMUNICATIONS MAGNET**

Benchley/Weinberger is a dynamic, high-performing, California Distinguished School with a focus on rigorous, common core standards-based lessons, designed purposefully to meet the needs of every student. Benchley/Weinberger offers a school-wide GATE program to all students.

**MT. EVEREST ACADEMY**

A unique school option where highly motivated students can learn on a flexible schedule, which offers weekly study group sessions, tutoring, and extensive extra-curricular opportunities in science, art, and music. This is a home study program where parents act as co-educators. Emphasis is on a nurturing K-8 community with an intensive college prep focus in high school.

**ROOSEVELT MIDDLE SCHOOL IB MAGNET**

Independent Study

**MISSION BAY HIGH SCHOOL**

www.sandiegounified.org/gifted-and-talented-education-gate

International Baccalaureate

**IB SCHOOLS**

The International Baccalaureate® (IB) offers programs for students aged 3 to 19 that develop the intellectual, personal, emotional, and social skills to live, learn, and work in a rapidly globalizing world.

**GATE/Seminar**

San Diego Unified offers Gifted and Talented (GATE) programs at numerous schools across the district to advance the development of high-potential youth. Testing to identify gifted students typically takes place in second grade. Once a student is identified as gifted, she or he is guaranteed placement in a GATE classroom, where students receive advanced instruction by highly trained teachers. The Seminar Program is intended to serve varied students who need extraordinarily high-level, advanced and challenging curricular activities, those with extremely high tested ability but low school achievement, and those students who are divergent thinkers and "march to a different drummer."

**GATE/Seminar**

San Diego students stand out nationwide with test score improvements

In addition to being academically prepared and fully proficient in English, San Diego Unified School District (SDUSD) values the rich opportunities for students to learn multiple languages. SDUSD believes all students benefit from being proficient in another language. Opportunities to learn another language as an opportunity to connect socially and academically. Students celebrate and honor diversity in people and use the classroom experience as an opportunity to develop and contribute to overall student achievement. Multilingualism is valued and celebrated. The district promotes the importance of bilingualism in the development of cognitive development, divergent and critical thinking, and problem-solving skills. Multilingualism is also an opportunity to connect socially and academically. Students celebrate and honor diversity in people and use the classroom experience as an opportunity to develop and contribute to overall student achievement. Multilingualism is valued and celebrated. The district promotes the importance of bilingualism in the development of cognitive development, divergent and critical thinking, and problem-solving skills.

**TWO-WAY DUAL LANGUAGE IMMERSION**

TWO-WAY DUAL LANGUAGE IMMERSION blends two language models. Both groups of students attend classes together; learning from and supporting one-another while developing linguistic and academic competencies in two languages. A 90:50 program model includes an equal distribution of English and Spanish in Grades 6-8. A 40:60 model begins with kindergarten spending 50 percent of the time in Spanish and 10 percent in English.

Science, Technology, Engineering, Arts, Mathematics (STEAM)

STEAM Focused

San Diego Unified is the proud recipient of the 2016-2019 Magnet School Assistance Program (MSAP) Federal Grant. Support provided by the grant enables the development of the TK-12 Linda Vista STEAM (Science, Technology, Engineering, Arts, Mathematics) Magnet Pathway curricular programs by adding Linda Vista, Carson and Montgomery.

Through the integration of science, technology, engineering, arts and mathematics, STEAM programs help students engage with their world using content knowledge, problem-solving skills, and critical thinking. STEAM classrooms are alive with hands-on, minds-on inquiry learning and exploration as students engage in active learning that integrates speaking and listening, reading, viewing, computing, designing, creating, and experimenting.

Art and Music

San Diego Unified promotes artistic literacy, innovation, creativity and excellence in the arts by providing a high quality, sequential, TK-12 arts experience for all students. The Visual and Performing Arts is essential to the growth and development of every child. That is why all our schools offer access to these vital programs. Our students have performed everywhere from the Rose Bowl Parade, to Carnegie Hall, but your child does not have to be a future celebrity to benefit from learning to express themselves through the arts.

Fact: 42% of all middle school and high school students enroll in arts classes at San Diego Unified - more than surrounding districts.
Middle schools create safe environments for students to begin exploring new academic experiences, through the arts, foreign languages, and other electives. School leaders and students work together to create a welcoming culture for all students. New opportunities exist for students to expand their academic interests and social network through clubs and other activities. These new opportunities enrich the academic learning that takes place in every San Diego school. In comparison with schools in other American cities, San Diego Unified elementary and middle schools have demonstrated superior academic progress in recent years. (Source: “San Diego students stand out nationwide with test score improvements,” by Lauryn Schroeder for the Union Tribune, April 10, 2018). We encourage every parent to schedule a tour of their neighborhood school to learn more about the programs and opportunities that are available. Tours are available at tours@sandi.net.
San Diego Unified values the richness of our students, families, colleagues and school communities. We value all languages and cultures. We foster educational practices that support students on their journey to becoming global citizens. We support school environments that enrich students’ academic, social and emotional learning. We believe that the combination of these skills promotes student leadership, self-efficacy and agency.

Our schools, their leadership and school communities are devoted to ensuring our students learn within safe, supportive and welcoming spaces, educational environments where students feel a sense of belonging. We strive to ensure our schools are safe, equitable and free from physical or emotional harm, bullying, cyberbullying, intimidation or any other form of harassment. We have a strong commitment to ensuring students feel valued by and connected to their diverse school communities.

San Diego Unified School District is committed to ensuring student and staff safety. We value, support and foster school environments free of discrimination during or after school related events, including off-campus activities, school-sponsored events, school buses, and/or any event related to school businesses, before or after school hours.

Civic engagement begins in the classroom, where children are exposed to history and government lessons as early as Grade 3. Action activities may include researching laws and the freedoms they are designed to protect, or writing to elected officials about an issue the student is passionate about.

San Diego Unified graduates include Hall of Fame sports stars, along with some of the nation’s top scientists, singers, actors, writers and civic/business leaders. We know our students will lead the world in the future, which is why our schools focus on giving students the skills required to lead. We encourage student leadership through student government, environmental clubs, gender-sexuality alliance clubs and civic leadership clubs like the Cesar Chavez service clubs.

We help students develop the skills to engage in difficult conversations on equity, bullying, and restorative justice.

Civic engagement begins in the classroom, where children are exposed to history and government lessons as early as Grade 3. Action activities may include researching laws and the freedoms they are designed to protect, or writing to elected officials about an issue the student is passionate about.

We foster educational practices that support students on their journey to becoming global citizens. We support school environments that enrich students’ academic, social and emotional learning. We believe that the combination of these skills promotes student leadership, self-efficacy and agency.

Our schools, their leadership and school communities are devoted to ensuring our students learn within safe, supportive and welcoming spaces, educational environments where students feel a sense of belonging. We strive to ensure our schools are safe, equitable and free from physical or emotional harm, bullying, cyberbullying, intimidation or any other form of harassment. We have a strong commitment to ensuring students feel valued by and connected to their diverse school communities.

San Diego Unified School District is committed to ensuring student and staff safety. We value, support and foster school environments free of discrimination during or after school related events, including off-campus activities, school-sponsored events, school buses, and/or any event related to school businesses, before or after school hours.

San Diego Unified graduates include Hall of Fame sports stars, along with some of the nation’s top scientists, singers, actors, writers and civic/business leaders. We know our students will lead the world in the future, which is why our schools focus on giving students the skills required to lead. We encourage student leadership through student government, environmental clubs, gender-sexuality alliance clubs and civic leadership clubs like the Cesar Chavez service clubs.

We help students develop the skills to engage in difficult conversations on equity, bullying, and restorative justice.

Civic engagement begins in the classroom, where children are exposed to history and government lessons as early as Grade 3. Action activities may include researching laws and the freedoms they are designed to protect, or writing to elected officials about an issue the student is passionate about.

Climate: Bullying Prevention

FLORENCE GRIFFITH-JOYNER MICROSOCIETY MAGNET
4271 Myrtle Avenue | (619) 640-4000
www.sandiegounified.org/joyner

Joyner students create a microcosm of the real world within the school’s rigorous academic program. Each student has a role: young entrepreneurs produce goods and services, elected officials establish laws, peace keepers oversee and monitor safety, judges arbitrate disputes, and reporters track down stories. All citizens earn wages, invest in product ideas, deposit and borrow money, pay taxes, tuition, rent, and use technology to advertise and communicate.

Even young children begin working within the framework of representative politics through student government. The Council of A&B Presidents and Student Equity Ambassador Program ensure that student voices are heard at the school level and also in the broader community. These “for the students, by the students” initiatives bring student-driven ideas to SDUSD Board Meetings, School Site Council meetings, and even to City Hall.

When students reach the high school level, they find a multitude of opportunities to become civically engaged. History and Social Science courses focus on topics including U.S. engineering, history, American government, public health, and energy policy. High school students also can dig deeper while also earning college credits, with classes available from City and Mesa colleges - and local universities - that include Political Science, U.S. History, Black and Chicano Studies, and Government.

Civics Education

LINDBERGH SCHWEITZER SERVICE LEARNING MAGNET
4133 Mt. Alberine Avenue | (619) 496-8400
www.sandiegounified.org/lindberghschweitzer

Lindbergh Schweitzer Elementary inspires learning and empowers students to take action that impacts their communities, both locally and globally. Our service learning activities encourage students to have active and creative minds, a sense of understanding and compassion for others, and the courage to act on their beliefs. Our students have opportunities to be inventors, explorers, and creators of change. Our challenging curriculum across all subjects engages student-driven passions and critical thinking. The Lindbergh Schweitzer Elementary community respects the individual needs of children and fosters a caring environment with the belief that each child should be given what they need, when they need it, to reach his/her highest potential.
HIGH SCHOOL

Program Overview

With the highest graduation rate in the state,* San Diego Unified high schools prepare students for success in college and the career of their choice. Students have the chance to follow their passions and refine the skills that they began developing in middle school. This includes scholarship-level programs for student athletes and also college-level courses for academic achievement. In fact, San Diego Unified students complete thousands of college-level courses every year while still in high school, expanding their options following graduation. San Diego Unified high schools also offer a robust series of career and technical classes ranging from the arts and software design to automotive repair for those students who are already certain of their future career. We encourage every parent to schedule a tour of their neighborhood school to learn more about the programs and opportunities that are available. Tours are available at tours@sandi.net.

High School Custom Learning Schools

Early College

EAST VILLAGE HIGH SCHOOL
1313 Park Boulevard, Bldg B  |  619-525-2000
www.sandiegounified.org/eastvillage
EVHS is a unique, middle college high school in partnership with San Diego City College which provides students a small learning environment where they can earn a high school diploma, plus up to 54 transferable college units free of cost. The school offers small classes, one-to-one student laptops, a dedicated San Diego City College counselor on site, access to accelerated City College summer courses, AVID, college tutors, ASB, student organizations, and community service opportunities. Students can complete all transferable UC/CSU general education courses while in high school to get a fiscally advantageous jump start on their college career. EVHS is the district’s “Top Tier, Four Year” college pathway! Applications are accepted year round.

SAN DIEGO METROPOLITAN REGIONAL CAREER AND TECHNICAL HIGH SCHOOL
7250 Mesa College Drive, K204  |  (619) 388-2299
www.sandiegounified.org/met
San Diego Met is located at Mesa College. The Met offers a personalized learning environment based on student interests. Students at the Met can begin taking college classes as early as 10th grade. All students participate in internships for real-world, hands-on experience. Graduates meet district, state and UC/CSU admission requirements.

Online Learning

iHIGH VIRTUAL ACADEMY
3939 Corral Street  |  (888) 764-5440
www.sandiegounified.org/ihigh
College Preparatory/Online and Blended Program iHigh is a WASC-accredited high school program that combines the flexibility of online instruction with daily access to face-to-face academic support from site-based, credentialed teachers. Online learning options include a full complement of UC ‘a-g’ coursework, iHigh’s full-time, independent study school in Old Town is available for all students within the county who qualify through the admissions process. UC ‘a-g’ courses are available both online and in a blended format on the high school campus. Online courses are offered district-wide for students in Grades 9-12; middle school students also have the opportunity to take math and world language courses online. Curricular options for students include: credit recovery, first time coursework, AP coursework, CTE courses in Software and Systems Design, AVID, MyPath reading and math assessment, and independent study.

* Refers to all large-city school districts as analyzed by the California Department of Education for the academic year 2018-19, the last year available at this time.
Pathway Options

Every San Diego Unified high school offers college and career pathways aimed at preparing students for a successful future. Pathway programs provide students opportunities to integrate rigorous academics and career high school education courses focused on high-skills, high-wage, and high-growth fields. Pathways programs combine diverse classroom instruction, student support, and work-based learning experiences to emphasize both college and career preparation. To begin preparing even the youngest learner to be successful in high school and beyond, neighborhood elementary and middle schools may offer classes aligned with the pathways emphasized by their local high school.

**ARTS, MEDIA, AND ENTERTAINMENT INDUSTRY SECTOR**
Focuses on skills needed in the areas such as business and Commercial Construction/Residential, and service industries that fall under the Entertainment, arts, and art studios. Students in these careers engage in creative thinking, and decision making to function successfully in these careers.

**EDUCATION, CHILD DEVELOPMENT & FAMILY SERVICES INDUSTRY SECTOR**
Provides students with preparation to pursue high-skilled family and early childhood education. The Child Development pathway provides students with the skills and knowledge they need to pursue careers in child care and related fields. The Family and Human Services pathway provides students with skills needed for a career related to family and social services.

**BUSINESS & FINANCE INDUSTRY SECTOR**
Prepares students for careers in fields such as business management, international trade, and accounting. Students gain knowledge and skills that prepare them for business careers. The Business and Finance pathway provides students with skills needed for a career related to business and financial management.

**ENGINEERING & MANUFACTURING INDUSTRY SECTOR**
Focuses on skills needed in the various engineering careers. Projects include hands-on experiments, robotics, and building scale models. Internships in this pathway allow students to explore their potential in this field. Students can also prepare for careers in fields such as engineering, architecture, and manufacturing firms.

**HEALTH SCIENCE & TECHNOLOGY INDUSTRY SECTOR**
Provides students with preparation for careers in healthcare, biotechnology, and related fields. The Health Science pathway prepares students with skills needed for a career related to healthcare and related fields. The Biotechnology pathway provides students with the skills and knowledge they need to pursue careers in biotechnology, biopharmaceuticals, and related fields.

**MANUFACTURING & PRODUCT DEVELOPMENT INDUSTRY SECTOR**
Prepares students for careers in manufacturing, product design, and engineering. Students gain knowledge and skills that prepare them for careers in these fields. The Manufacturing pathway provides students with skills needed for a career related to manufacturing and related fields.

**MARKETING, SALES, AND SERVICES INDUSTRY SECTOR**
Focuses on skills needed in the areas such as marketing and sales. The Marketing pathway provides students with skills needed for a career related to marketing and sales.

**RECREATION, TOURISM, AND SERVICE AND HOSPITALITY INDUSTRY SECTOR**
Focuses on skills needed in the areas such as recreation, tourism, and service industries. Students gain knowledge and skills that prepare them for careers in these fields. The Recreation pathway provides students with skills needed for a career related to recreation and related fields.

**TRANSPORTATION INDUSTRY SECTOR**
Focuses on skills needed in the areas such as transportation and logistics. Students gain knowledge and skills that prepare them for careers in these fields. The Transportation pathway provides students with skills needed for a career related to transportation and related fields.

Pathway options at each high school are aligned to industry sectors and students receive preparation for post-secondary education in one of these sectors.

For further information on industry sectors and pathways, please visit www.sandiegounified.org.
Dream Big, Work Hard, No Excuses

San Diego Unified School District is committed to excellence in athletics as part of a larger commitment to excellence in education. That excellence also includes a commitment to the physical and emotional well-being, social development of student-athletes as well as the development of their sense of citizenship, dedication to sportsmanship and fair play, the development of individual and team skills, the exertion of best effort, the will to win, and general conduct that brings credit to San Diego Unified and is a source of pride and enthusiasm for all members of the San Diego community.

San Diego Unified School District aspires to be the county’s premier high school athletics program both academically and athletically, a model of excellence for others to emulate, while enhancing the lives of student-athletes and preparing them for life beyond high school athletics.

Ultimately, the mission of the athletics program is to engage as many students as possible, to elevate the spirit and culture of the school, and stimulate the best effort of all who are associated with San Diego Unified. Through the mission of its athletic programs, we unite the students, faculty, staff, alumni and community in a common and shared experience.

“Tradition, Teamwork and Integrity” have been the foundation for the historic success of San Diego Unified School District Athletics. In the last year alone (2018-19), San Diego Unified schools produced a record 19 CIF championship teams.

Wellness Centers

San Diego Unified schools have received national recognition as America’s Healthiest Schools. The award is granted by Alliance for a Healthier Generation’s Healthy Schools Program, an evidence-based national initiative to create healthier school environments where children can thrive. The award demonstrates our district’s commitment to fostering the health of our students and staff. In addition, The American Heart Association also honored San Diego Unified for building a culture of health within our school district.

San Diego Unified School District Wellness Centers Model (2017)

Personal fitness and school-based activities that promote well-being are important parts of every student’s education in San Diego Unified. Not only do all our schools have comprehensive wellness plans to improve student health, high school students have access to scholarship-level athletic programs and innovative PE courses, including yoga and dance. San Diego Unified also leads the state in clean drinking water for students, following a city-wide testing program to eliminate lead in school site fountains. Through our District Wellness Initiative we work to inspire students to develop lifelong healthy habits, that include a good diet and regular physical activity.

San Diego Unified schools have received national recognition as America’s Healthiest Schools.

GREEN ELEMENTARY ACADEMICS AND ATHLETICS MAGNET

7030 Wandermere Drive | (619) 460-5755
www.sandiegounified.org/green

Gymnastics, track and field and other physical activities provide unique opportunities to build individual pride in accomplishments, along with good sportsmanship and team spirit. Students research topics such as nutrition, physiology, exercise, and health. Technology is integrated daily into every classroom. The arts are developed through dance, art, music, band, and orchestra instruction. Green offers a school-wide GATE program to all students in all classrooms.
Every single San Diego Unified student has computer access. Our STEAM-themed classrooms are filled with high-tech tools like 3D printers, engineering software, computer programmed software, coding robots, and more hands-on equipment aimed at introducing and educating our students in subjects that are increasingly essential for college and careers of the future. Companies like Google and Qualcomm have partnered with the district to help students collaborate online and learn to become better problem-solvers.
