      (3) Day-to-day substitutes (visiting teachers) automatically become members on the first workday of the month following the month in which they teach 100 days or 600 hours within one school year in one school district. Prior to age 60, a member who becomes disabled may be eligible for disability allowance if he/she has five or more years of credited California service.

e. **Temporary employment after retirement.** The only restrictions on employment after a service retirement are within the public school system of California. A retired certificated employee may be employed in a *certificated* position as long as the retiree does not exceed the annual earnings limitations established by STRS for a school year. The earnings limitations is adjusted by STRS each July 1 to reflect increases in the California Consumer Price Index. STRS will notify employers and retired members of each year’s post-retirement earnings limitation. A retiree’s STRS allowance will be reduced by the amount of creditable earnings from public school employment in excess of the limit.
